

For this week's second interview I decided to interview our beloved member in the community FUN X TIME known as krill (2IC) he has proven his determination to the community since the start and does his best to introduce and improve new things, as always we gave him a list of questions that he contributed to answer, as always we gave him a list of questions that he contributed to answer.

Questions:

1-When did you join SWAT? Who or how were you recruited?

2-What are the most mesmerizing memories being in SWAT?

3-What are your goals in SWAT?

4-In your opinion, do you think you are the chosen one? Why, or why not?

5-Do you plan to resign anytime in the future? If so, when? Could there be any possible reason?

6-Do you like the SWAT community new or old? Why?

answer:

1-In 2020, after a short hiatus, after losing interest in an army

called Aliens of Club Penguin (ACP), I had no interest in Club Penguin Armies. This happened after the shut down of Club Penguin Online (CPO), a CPPS, in March 2020. In May 2020, I was recruited by G90. Promising that the CPPS I used to own and operate by then will be used for the events SWAT will hosted, I agreed to join the server. After being recruited, I did not attend events until my birthday came up, on 27th June 2020.

2-My favorite memories being in the army included being promoted to greater HCOM positions in sudden moments on special occasions, such as my birthday. Almost everyday was a memorable day, so I cannot search much from this large library of amusements!

3-My goal in SWAT is to serve and protect. I should provide service in the the most pleasurable way possible, that could accelerate SWAT to greater heights!

4-In my opinion, I believe that there isn't any chosen one. We should respect each others in a way that makes us equals, as we are! If a handful of people were to be selected anyway, I would likely be one of the chosen ones. We all were chosen once, when we were recruited! Weren't we?

5-There is a possibility, but no one knows what could happen! As per my desire, I would prefer not to resign all my life: and stay one of the greatest factors of the community. Likely the case, I will not be quite active for the next few years, especially in attending events.

6-Both generations appear great! The older times were

memorable. The newer times are satisfactory and contributes to a better, sustainable development of SWAT. I'd likely prefer the newer one. As time flies, the new generation I am talking about would turn into an old one as SWAT develops into a vision of prestige. If time can tick backwards. The history of SWAT is no less.
